this volume presents an assembly of essays that together offer a remarkably vivid depiction of the varied deaf experience in america

since the early 1970s when deaf history as a formal discipline did not exist the study of deaf people their culture and language and how hearing societies treated them has exploded deaf history unveiled interpretations from the new scholarship presents the latest findings from the new scholars mining this previously neglected rich field of inquiry the sixteen essays featured in deaf history unveiled include the work of harlan lane rene fischer margret a winzer william

mccagg and twelve other noted historians who presented their research at the first international conference on deaf history in 1991

the field of deaf studies language and education has grown dramatically over the past forty years from work on the linguistics of sign language and parent child interactions to analyses of school placement and the the mapping of brain function in deaf individuals research across a range of disciplines has greatly expanded not just our knowledge of deafness and the deaf but also the very origins of language social interaction and thinking in this updated edition of the landmark original volume a range of international experts present a comprehensive overview of the field of deaf studies language and education written for students practitioners and researchers the oxford handbook of deaf studies language and education volume 1 is a uniquely ambitious work that has altered both the theoretical and applied landscapes pairing practical information with detailed analyses of what works why and for whom all while banishing the paternalism that once dogged the field this first of two volumes features specially commissioned updated essays on topics including language and language development hearing and speech perception education literacy cognition and the complex cultural social and psychological issues associated with deaf and hard of hearing individuals the range of these topics shows the current state of research and identifies the opportunities and challenges that lie ahead combining historical background research and strategies for teaching and service provision the two volume oxford handbook of deaf studies language and education stands as the benchmark reference work in the field of deaf studies

in this updated edition of the landmark original volume a range of international experts present a comprehensive overview of the field of deaf studies language and education written for students practitioners and researchers the oxford handbook of deaf studies language and education volume 1 is a uniquely ambitious work that has altered both the theoretical and applied landscapes

the authoritative statement on the deaf their education and their struggle against prejudice

in sign language interpreting sli there is a great need for a volume devoted to classic and seminal articles and essays dedicated to this specific domain of language interpreting students educators and practitioners will benefit from having access to a collection of historical and influential articles that contributed to the progress of the global sli profession in sli there is a long history of outstanding research and scholarship much of which is now out of print or was published in obscure journals or featured in publications that are no longer in print these readings are significant to the progression of sli as an academic discipline and a profession as the years have gone by many of these readings have been lost to students educators and practitioners because they are difficult to locate or unavailable or because this audience simply does not know they exist this volume brings together the seminal texts in our field that

document the philosophical evidence based and analytical progression of sli work

the time has come for a new in depth encyclopedic collection of articles defining the current state of deaf studies at an international level and using the critical and intersectional lens encompassing the field the emergence of deaf studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to deaf history deaf culture signed languages deaf bilingual education deaf art and more have served to expand the activities of research teaching analysis and curriculum development the field has experienced a major shift due to increasing awareness of deaf studies research since the mid 1960s the field has been further influenced by the deaf community s movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices a major goal of this new encyclopedia is to shift focus away from the medical pathological model that would view deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society by contrast the deaf studies encyclopedia seeks to carve out a new and critical perspective on deaf studies with the focus that the deaf are not a people with a disability to be treated and cured medically but rather are members of a distinct cultural group with a distinct and vibrant community and way of being

choice outstanding academic title 2003 during the nineteenth century american schools for deaf education regarded sign language as the natural language of deaf people using it as the principal mode of instruction and communication these schools inadvertently became the seedbeds of an emerging deaf community and culture but beginning in the 1880s an oralist movement developed that sought to suppress sign language removing deaf teachers and requiring deaf people to learn speech and lip reading historians have all assumed that in the early decades of the twentieth century oralism triumphed overwhelmingly susan burch shows us that everyone has it wrong not only did deaf students continue to use sign language in schools hearing teachers relied on it as well in signs of resistance susan burch persuasively reinterprets early twentieth century deaf history using community sources such as deaf newspapers memoirs films and oral sign language interviews burch shows how the deaf community mobilized to defend sign language and deaf teachers in the process facilitating the formation of collective deaf consciousness identity and political organization

using original sources this unique book focuses on the deaf community during the 19th century largely through schools for the deaf deaf people began to develop a common language and a sense of community a place of their own brings the perspective of history to bear on the reality of deafness and provides fresh and important insight into the lives of deaf americans

be opened the catholic church and deaf culture offers readers a people s history of deafness and sign language in the catholic church paying ample attention to the vocation stories of deaf

priests and pastoral workers portolano traces the transformation of the deaf catholic community from passive recipients of mercy to an active language minority making contributions in today's globally diverse church background chapters familiarize readers with early misunderstandings about deaf people in the church and in broader society along with social and religious issues facing deaf people throughout history a series of connected narratives demonstrate the strong catholic foundations of deaf education in sign language including sixteenth century monastic schools for deaf children and nineteenth century french education in sign language as a missionary endeavor the author explains how nineteenth century schools for deaf children especially those founded by orders of religious sisters established small communities of deaf catholics around the globe a series of portraits illustrates the work of pioneering missionaries in several different countries apostles to the deaf who helped to establish and develop deaf culture in these communities through adult religious education and the sacraments in sign language in several chapters focused on the twentieth century the author describes key events that sparked a modern transformation in deaf catholic culture as linguists began to recognize sign languages as true human languages deaf people borrowed the practices of civil rights activists to gain equality both as citizens and as members of the church at the same time deaf people drew inspiration and cultural validation from key documents of vatican ii and leadership of the deaf catholic community began to come from the deaf community rather than to it through missionaries many challenges remain but this book clearly presents deaf catholic culture as an important and highly visible embodiment of catholic heritage

this title explores identity formation in deaf persons it looks at the major influences on deaf identity including the relatively recent formal recognition of a deaf culture the different internalized models of disability and deafness and the appearance of deaf identity theories in the psychological literature

in the late 19th century the so called german method which employed spoken language in deaf education triumphed all over the western world at the same time as deaf german schoolchildren were taught to articulate and read lips an emancipation movement of signing deaf adults emerged across the german empire this book tells the story of how deaf people moved from being isolated objects of administration or education depending on welfare or working in the fields to becoming an urban middle class collective with claims of self determination main questions addressed in this first comprehensive work on one of the world's oldest movements of disabled people include how deaf organisations emerged what they fought for and who was left behind

the deaf community in the west has endured radical changes in the past centuries this work of history tracks the changes both in the education of and the social world of deaf people

through the years topics include attitudes toward the deaf in europe and america and the evolution of communication and language of particular interest is the way in which deafness has been increasingly humanized rather than medicalized or pathologized as it was in the past successful contributions to the deaf and non deaf world by deaf individuals are also highlighted instructors considering this book for use in a course may request an examination copy here

a reader on the history of deaf communities and their sign languages

gannon s book explores the distinctive visual culture of deaf americans by documenting the origins of schools programs organizations events and more

a groundbreaking study of deaf identity minority politics and sign language traces the history of the deaf community in japan

bragg english gallaudet u has collected a selection of sources including political writings and personal memoirs covering topics such as eugenics speech and lip reading the right to work and the controversy over separation or integration this book offers a glimpse into an often overlooked but significant minority in american culture and one which many of the articles asserts is more like an internal colony than simply a minority group annotation copyrighted by book news inc portland or
